

CYBERSECURITY IMPLEMENTATION

Evolve's Cybersecurity Partnerships Solve Minimum Cyber Underwriting Requirements

A Seamless Buying Experience

Due to increased Ransomware & Funds Transfer Fraud cyber claims costs, the cyber insurance marketplace, as a whole, requires minimum cybersecurity controls to purchase coverage. Evolve will pair your client with a cybersecurity vendor specifically tailored to their business & cybersecurity needs. Our pre-vetted, discounted, & industry leading cybersecurity partners implement minimum cybersecurity requirements prior to coverage inception dates.

Minimum Cybersecurity Controls Include:

Multi-Factor Authentication (MFA)	Data Back Up Solutions
Endpoint Detection & Response (EDR)	Network Monitoring Software
Legacy Software Decommissioning	Vulnerability Scanning & Patch Management
Next Gen Antivirus & Firewall Software	Penetration Testing
Malicious Email Filtering	Security Information & Event Management (SIEM)
Employee Phishing Training	Security Operations Center (SOC)

Cyber Insurance, Meet the Cybersecurity Industry.
